

**GUARDIAN®**  
STAFF SAFETY SYSTEMS

Guardian group is a British manufacturer and one of the World's major suppliers of end user call alarms and staff attack systems. Our wide range of products exceed NHS and home office requirements and are extensively used by a wide customer base including Trusts and private healthcare providers across the UK for its diverse range of applications.

**How has this been achieved?**

The answer is simple – we listen to our customers.

Our development program is driven by a combination of the continuing advances in technology and our customer's needs. Many of the features which a Guardian system provides were incorporated in response to comments and requests from clients who were looking for solutions to combat particular issues. Therefore our systems incorporate many unique features which we believe provides our clients with cost effective systems that are reliable, easy to use and extremely maintenance friendly.

# Guardian Staff Safety Systems

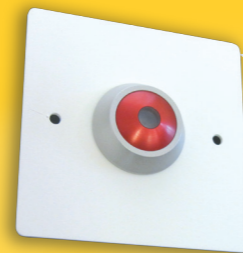

## SECURE CALL SYSTEMS. The Ultimate Solution.

- Highly cost effective range of systems.
- Simple and efficient to install.
- Reliable & extremely maintenance friendly.
- Easy for staff and end users to operate.
- Diverse range of call points.
- Multiple levels of calls.
- Utilises IP technology.
- Wide selection of display options.
- All events are recorded.
- Integrated Tamper proof alarms.

Anti-Ligature standard Call Push

Standard Call Push for fixed locations

Anti-Ligature Mushroom Call Push

Ideal for patients with disabilities, who may not be able to activate a conventional flush button

Mobile Communication

Allows staff to receive incident alarms on their portable units

Reset/call units

Wide range of call/reset units including jack sockets for patients who need pendants

Pop-up window for your PCs along with full graphical displays

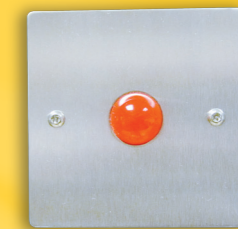

Uses TCP/IP protocols

TCP/IP protocol allows our systems to integrate harmoniously with other independent platforms and technologies

Corridor Display

Ideal for areas requiring large-scale visual indication

Over door Light

Typically used outside rooms and as follow-me lights in corridors

Key reset with isolation facility and integral over-door light

This combination unit eliminates the need for separate over door lamps and allows staff to control any nuisance calls

Display unit

Complete with integral sounder to show call type and location
